V/REF.:

OBJET Feasibility study for Energy Recovery from solid waste in Poznan

Dear Mr Kuczynski,

We are happy to confirm you that we have been pleased to work with CEG FAE Sp acting as subcontractor on the project mentioned above since 2001.
Your assistance to our team was very valuable, particularly for the relations with the Municipality and facilitated the final acceptance of the report in 2003.

With best regards,

Alain GUEGUEN
Director
Water, Wastewater and Solid wastes Division
